Interface®

Introducing **Interface**® Luxury Vinyl Tiles

Hard meets soft, creating a perfect match

Hard and soft comes together in perfect unity to create a whole new world of inspired floor designs. Our LVT selections of natural and textured wood-grains and creative stones have been thoughtfully designed -- they perfectly integrate, complementing the same natural inspirations seen in our extensive carpet tiles range. No matter how you arrange them, these are designed to mix and flow seamlessly together. In fact, they fit like a glove without the need for transition strips.

Interface LVT is constructed from a combination of highly durable, recyclable layers. Scuffs and scratches from everyday wear are minimized by Ceramor™, a ceramic bead coating that protects the surface layer of the tile. A high performance backing layer, Sound Choice™ acts in the same way as our carpet tiles, reducing noise impact levels and delivering outstanding acoustic properties. And all these are backed by the same 15-year product warranty too.

Get the best of both worlds by pairing LVT with modular carpet tiles, and say hello to harmonious, gorgeous style

Integrated System.

Say goodbye to transition strips and doubling up. Our LVT floorings are made to work as a system with our modular carpet tiles. The compatible size and height of our products allows you to integrate modular carpet as an inset rug or an adjacent field – no transition strips required. You'll avoid doubling up on materials and save money.

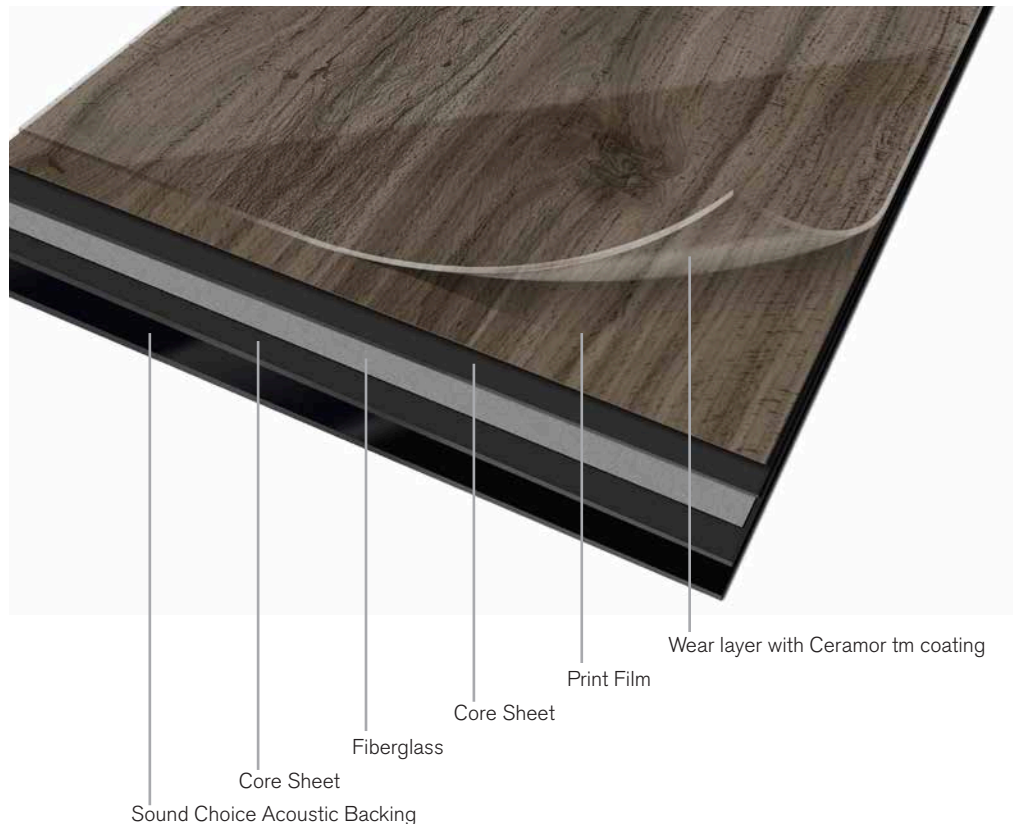

Flexible Installation.

Create faster, cleaner and more flexible installations. Use one installation system for both LVT and Carpet tile. Multiple options are available from innovative glue free installation using Tactiles to Intertac, pressure sensitive adhesive or even permanent adhesive depending on the installation requirements.

Circular System.

Keep flooring out of the landfill. Our LVT is produced with a controlled material stream so it can be reclaimed and recycled into our GlasBac®RE recycled content backing through our ReEntry® program.

Why Our Modular Flooring System (continued)

High Performance from Top to Bottom.

From our Ceramor™ Top Coat to our Sound Choice™ backing, we've designed our modular resilient LVT to provide peak performance in even the most challenging work environment while also providing superior sound absorption.

Abrasion Resistance. Our Ceramor ceramic bead coating provides a durable finish that resists scratching and scuffing so your floors look better longer. Embossing adds texture to further enhance durability.

A Strong Core. Incorporating a fiberglass layer between two core sheets provides optimal dimensional stability and flexibility, allowing for a glue-free installation and the ability to move and update with ease.

Quiet Comfort. (or just "Quiet.") With an IIC rating of 57 our Sound Choice backing provides superior protection against vertical sound transfer. Minimizing noise enhances workplace productivity and creates more usable, comfortable spaces.

Specifications

Level Set Collection | Woodgrains

Style Name / Number	Textured Woodgrains - A004 Natural Woodgrains - A002
Product Construction	High Performance Luxury Vinyl Plank
Class / ASTM F1700	Class III Printed Vinyl Plank and Tile
Wear Layer Thickness	22 mil / 0.55 mm
Total Thickness	4.5 mm
Backing Class	Commercial Grade
Acoustic Layer	SOUND CHOICE™
Finish	CERAMOR™ UV Stabilized Ceramic Bead Coating
Nominal Dimensions	25cm x 100cm

Performance

Critical Heat Flux	GB/T 11785 under GB 8624, ISO 9239-1, ASTM E648
Smoke Rate	GB/T 11785 under GB 8624, ISO 9239-1, ASTM E662
Slip Resistance	GB/T 4100, ASTM D2047
Sound Acoustic (absorption & Transmission)	ISO 354 & ISO 10140-3, ASTM E492
Size, Tolerance	GB/T 4085, ISO 24342, ASTM F2055
Dimensional Stability	GB/T 4085, ISO 23999, ASTM F2199
Residual Indentation	GB/T 4085, ISO 24343-1, ASTM F1914
Resistance to Light	GB/T 4085, ISO 105-B02, ASTM F1515
Resistance to Heat	ASTM F1514
Resistance to Chemicals	GB/T 4085, EN-ISO 26987, ASTM F925
VOC Test	GB 18586, ISO 10580, ASTM D5116
Flexibility	GB/T 4085, ISO 24344 Method A, ASTM F137
Antibacterial Activity	ASTM 2180
Static Load	ASTM F970
Abrasion Resistance	GB/T 4085

Environmental

Ingredients & Life Cycle Impacts	Environmental Product Declaration
Sustainability Assessment	NSF/ANSI 332, Meets Certification Guidelines
LEED v4	Contributes to IEQ: <i>Low Emitting Materials</i> ; M&R: <i>EPD</i> and <i>EPR</i>
End of Life	Fully Recyclable LVT to Carpet Tile Backing Recycling

Technical Information

Installation	See Interface LVT Installation Guidelines online
Maintenance	See Interface LVT Maintenance Guidelines online
Reclamation	Recyclable through ReEntry®
Warranty	15 Year Limited Commercial Warranty
Installation Methods	Ashlar, Herringbone

As part of Interface's Mission Zero promise to eliminate any negative impact on the environment by 2020, we always consider the environment impact of every creative, manufacturing and building decision. This sample book is printed on recycled paper and with soy based ink. Twenty four virgin trees were saved from our use of 1725kg of recycled paper in the production of 5000 sample books. Energy intensity also decreased and greenhouse gases were reduced. The other reductions came from waste water and solid waste. Through our sample reclamation program, we help keep sample materials out of landfill by re-using them until it is time to recycle these sample materials.
